## R. S. HACKMAN IS NEW PRESIDENT FOR CRIPPLED CHILDREN'S UNIT

Russel S. Hackman, Biglerville, who has been acting president of the Adams County Crippled Children's Society since the resignation of Walter R. Doud six months ago, was elected to the presidency for the next year at the May meeting of the society's board of directors here Wednesday afternoon.

Dr. Howard S. Fox was elected vice president and Mrs. Verna H. Myers was elected secretary. Miss Elizabeth Evans was named treasurer. The election followed the submission of the report of the nominating committee by Attorney Edward B. Bulleit.

There was a discussion on whether the society should consider paying for physical therapy for charity patients at the Warner Hospital as well as for out-patients who would not have the treatments unless paid for by the society. The constitution committee was asked to make a study of the matter and recommend a policy for the society to follow with regard to payments for hospitalization or any kind of hospital care.

J. D. Miller, Biglerville, presented a report on the sessions of the annual convention of the state Society for Crippled Children and Adults in Pittsburgh last week. He also reported on a meeting of the state board of directors which he attended.

There was a discussion of rates for physical therapy work at the Warner Hospital as against rates (Continued on Page 2)

## OPEN CAR DOOR WRECKS AUTO

A York Springs R. D. mother and her three-year-old daughter escaped with cuts and bruises Wednesday evening when their car dropped 15 feet into a small stream near the York Springs intersection on Route 15.

The car, operated by Mrs. Annie Griset Coulson, went out of control when one door of the machine swung open as the car turned north on Rte. 15 out of Rte. 94. Attempting to stop and at the same time close the car so her child would not tumble out of the auto, Mrs. Coulson's foot slipped off the brake and onto the accelerator. The car went out of control, ran off the road and dropped into the stream a short distance north of the intersection at the Varice Stitzel property.

The accident was witnessed by a bus load of men stopping at a bus moment at Coulson's Garage nearby. They, with men from the garage, rushed to the assistance of the pair and removed the woman and her daughter, Gloria, from the wrecked machine.

They were taken to the office of Dr. William Flickinger, York Springs, by Mrs. Donald Tanger, York Springs. Several stitches were required to close a gash on Mrs. Coulson's chin and her daughter was treated for cuts on the knees and brushburns.

The accident occurred about 9:15 p.m.

## Waitress Left With \$16, Shetter Charges

A Shippensburg woman who has worked approximately two weeks as a waitress here was charged this morning with removing the contents of the cash register, a total of \$16, from the Shetter House when she suddenly "quit" there.

Cloyd Shetter, owner of the Shetter House, signed an information before Justice of the Peace John H. Bashore against the waitress, Hazel Barrack Shippensburg, charging her with theft.

He told borough police that the waitress was the only one on duty when she reported for work at 7:30 o'clock this morning. At 8 o'clock, he said, she left the place with a "boy friend." Shetter claimed she was the only person with access to the cash register during the period and that, when she left, the money had also disappeared.

Shetter said the waitress had worked at two restaurants during her stay here and that he owed her \$3.50 in wages at the time she disappeared this morning, according to police.

## Military Ballot May Change Close Vote

Sebastian R. Hafer may win the election for Republican committeeman in First Ward, Second Precinct by two votes, or he and Samuel Weiser may wind up in a tie for the position, it was learned today.

Today the county election board reported that it has received one ballot from a resident of the district now serving in the armed forces.

The military ballots cannot, according to law, be opened until May 28, so final decision on the outcome of the committee election in First Ward, Second Precinct will have to wait until that time.

## OBJECTIVES OF BANK RESERVE SYSTEM CITED

The major functions and objectives of the Federal Reserve System as an instrument of maintaining a stable economy through credit control of member banks was outlined, Wednesday evening, by Dr. Milton L. Stokes, head of the Department of Economics and Political Science at Gettysburg College, at a dinner meeting of the Adams County Bankers Association, at Fidler's restaurant, Biglerville.

Dr. Stokes told the county bankers that "while the Federal Reserve System functions to control the money of this nation its immediate purpose is to regulate the supply and availability of the monetary substance and the maintenance of a superior standard of living."

He defined money supply as "paper, coins, and demand deposits," and declared that "in the light of this definition the Federal Reserve System, which controls only monetary substance, is asked to accomplish many things which it is unable to do."

Credit Control Methods  
In his discussion of the Federal Reserve System as a "balance in restricting the lending practices of banks," Dr. Stokes examined various past and contemporary methods of credit control. He enumerated: changes in the discount rate, changes in reserve requirements, open market operations, margins on security purchases, regulation of consumer credit, the control of real estate credit, and voluntary credit restraints.

## Here And There News Collected At Random

The emerald, birthstone for May, has always been considered a love stone, closely identified with Venus and particularly propitious for women, bringing them happiness in love and comfort in domestic affairs, according to the Jewelry Industry Council.

Among the legends and superstitions that have attached themselves to this beautiful green stone is a belief that conjurers and magicians could not weave a spell about anyone who wore an emerald. Gold and emerald jewelry has been found in the mounds of Tuscany, Herculeum and Pompeii — cities which lay in ruin hundreds of years before America was discovered. The most important source of emeralds today, however, is South America.

Early records of the population and resources of Pennsylvania are often revealing as to the almost incredible progress made by the American people during the relatively brief history of our Commonwealth.

A System of Modern Geography published in Boston in 1814 provides a record of population and resources for 1,800 which may well arouse our wonder as to what developments the next century or two will witness here in the place we call home. Here are a few:

In 1800 the population of the Commonwealth was 602,545 (Continued on Page 4)

## Robert L. Ecker 13-Year-Old Carrier Boy, Is Killed When Struck By Car On Wednesday

Robert Leroy Ecker, 13, of Hampton, was fatally injured Wednesday evening at 6:25 o'clock when he was struck by an automobile while riding a bicycle one-fourth of a mile

south of his home on the Cross Keys Rd. The youngster, accompanied by three other boys on bicycles, had driven from Hampton to the Locust Inn where Robert delivered a newspaper. He was a carrier boy for The Gettysburg Times.

The four then started to return to Hampton, riding in single file. Junior Deatrick, 10, was first in line, Gary Wayne Rinker, 11, second, Robert Ecker, third, and Fred Myers, 11, fourth. All of the boys are from Hampton.

State Police said James L. Rynard, 20, 411 Maple Ave., Hanover, driving north toward Hampton, told them he passed a north-bound tractor-trailer truck and then saw the four bicyclists in front of him.

Junior Deatrick told police that when he looked back and saw Rynard's vehicle he called to the boys behind him that a car was approaching from the rear. He said that Robert Ecker was riding a little further to the left than the other three.

Rode To Left  
Rynard said the Ecker boy turned to the left, apparently planning to cross the highway to allow the car to pass between him and the other bicyclists.

Rynard also swung to the left and ran into the bicyclist, the right front fender and hood of the vehicle striking the youngster.

After the collision, the Rynard car crossed the highway to the left, climbed an embankment, struck a pole, turned back to the right, crossed the highway again and came to rest against guard rails, after traveling 235 feet from the point of the accident.

Inquest On Monday  
Dr. C. G. Crist, Adams county coroner, said the youngster died at the scene of a compound fractured skull, a compound fractured jaw, a crushed chest and lacerations all over the body. An inquest will be held Monday at 3 p.m. at the Court House.

A student at the East Berlin Junior High School, the youth was a member of the school band and Boy Scout Troop 55. He had delivered The Gettysburg Times in the Hampton area for the past several months.

Surviving are his parents, Fred H. and Erma I. (Deatrick) Ecker; a sister, Judith Ann Ecker, at home, and the maternal grandparents, David G. and Laura (Dick) Deatrick, Hampton.

Funeral services Saturday afternoon at 2 o'clock from the Pitten-turf Funeral Home, York Springs, with interment in the Hampton Cemetery. Friends may call at the funeral home Friday evening from 7 to 9 o'clock.

## JULY, 1953, WAS COUNTY PEAK IN EMPLOYMENT

Peak farm employment in Adams County during 1953 occurred in July when 149 farm owners employed 4,412 field laborers according to a survey on county farm labor conducted recently by the United States Department of Labor, Bureau of Employment Security.

The survey was conducted in conjunction with the 149 large farm employes who furnished information on the largest number of hired workers on their payrolls each month, number of workers engaged each month, and the number of employes returning each season.

The figures indicated that the 149 farmers employed 352 wage and salaried employes for year-around operations. The bulk of the July peak employment was for the cherry harvest.

During August, September, and October, tomato, peach, and apple seasons, an average of 1,350 were employed. The survey also showed that the 149 employers hired a total of 6,361 people throughout the year. About 53 per cent of these employes return to their employers each season.

In 1953 the local farm labor force in Adams County was supplemented by approximately 450 Puerto Ricans and 250 migrants in the area during the harvest season.

The 1950 census noted that of the 2,668 farms in Adams County, 388 employed other than family help. These farms employed a total of 832 people.

## COOL WEATHER HURTS TOMATO PLANT GROWTH

Adams County tomato growers, faced with immature plants by unseasonably cold spring weather and unable to purchase supplies from similarly stricken southern distributors, were advised this morning that given a few days of "reasonable warmth" now is a good time for plantings.

Don Horst, crop supervisor for the C. H. Musselman Company, has pointed out that a well-balanced planting schedule need not start too early. Tomatoes, he noted, are received for processing at the Musselman Company often into the first week of October, with the peak around Labor Day.

Millions of plants grown locally for planting have been held back considerably by cold winds and less than normal temperatures and will cause delay in plantings unless warm days arrive shortly. Millions of plants have been started but some early plantings were hurt by frost and need replanting, Horst said.

**Good Time To Plant**  
In a statement released this morning Horst said: "Actually, now is a good time to plant. Earlier plantings are always more of a gamble. In some years heavy rain makes planting difficult and plants get too large."

A factor in the local tomato plant situation is that the supply from Georgia, the country's major source of outside plants, has been hurt by prematurely warm southern weather. Plants came along too fast there and became too large for planting on northern schedules.

The release pointed out that a severe freeze in Indiana and Ohio has also created a demand for large replantings. A large supplier of tomato plants from Lancaster County, who is also an agent for southern tomato plants, says he is unable to keep up with demand.

However, Horst expressed his opinion that a few days of warm weather will take care of the C. H. Musselman Company growers "as his plants are healthy and need only size."

**Help Pay For Shoes**

The directors left to the discretion of the state nurses the approval of assistance for physical therapy for needy children at the Warner Hospital this summer. They set a \$200 limit on expenditures without further authorization from the board. That sum is in addition to sums already committed for treatment of the auto accident victim now getting daily treatments.

President Hackman presided at the meeting with about 15 members present.

He is just a little fellow . . . with a spot upon his face . . . but he is a real pal . . . nothing else can take his place . . . with two eyes that tell a story . . . full of trust and kindness too . . . he brings comfort to my being . . . when my daily work is through . . . always there to bid me welcome . . . with a gaily wagging tail . . . little dog forever faithful . . . with a love that will not fail . . . matters not if I'm lucky . . . I will never stand alone . . . for I have a dear companion . . . most content with just a bone . . . always happy just to see me . . . what more could a person ask . . . than to have a special helper . . . that makes easy every task . . . just a fourlegged creation . . . loyal to the very end . . . little wonder it is written . . . that a dog is man's best friend.

## Diplomatic Mission Leaves Guatemala

GUATEMALA (AP)—Nicaragua's entire diplomatic mission to Guatemala left here suddenly for home yesterday. No explanation was given but some local quarters interpreted the departure as a break in diplomatic relations between the two Central American republics.

The governments of Guatemala and Nicaragua have been at odds for months. Guatemalan President Jacobo Arbenz Guzman charged in January that Nicaragua's President Anastasio Somoza was leading a plot by Nicaragua, the Dominican Republic, Santo Domingo and Venezuela to invade Guatemala and overthrow Arbenz' leftist regime.

Somoza called the charge a "lie" and all four of the Central American governments named denied it officially.

## ADD 5 STORES TO ROYAL CHAIN

The Royal Jewelers chain of 22 stores, of which the local store on Baltimore St. is a member, has announced a merger with the Rogers chain of five stores in Pennsylvania and West Virginia to form the largest chain of jewelry stores in this area.

According to Ernest Oyler, manager of the local store, the merger is effective immediately and will touch off a chain-wide \$2,000,000 merger sale to readjust the tremendous stock of the entire group.

This now brings to 27 the number of stores now being operated as a group, with headquarters in Harrisburg. All purchasing is done through that office to effect maximum buying power and operating economy.

The chain, which has more than doubled in size in the past 18 years, claims to be one of the largest dis-

From the Files of the  
Star and Sentinel and  
The Gettysburg Times

### TWENTY YEARS AGO

108 Children Have Measles: With  
the placarding of seven additional  
homes in Gettysburg over the week-  
end, one hundred and eight cases of  
measles are now prevalent in Gettysburg.  
Erie R. Deardorff, borough  
health officer, announced today.

The peak of the epidemic is now  
believed to have been reached. Five  
new cases were reported today (May  
14) and two were reported on Sun-  
day. Most of the children have the  
measles in mild form, although a  
few cases have been pronounced severe.

While the epidemic seems to have  
run its course in Gettysburg, eighteen  
cases were reported to John H.  
Deatrick, Biglerville, county health  
officer, over the week-end.

### Couple Wed At Nuptial Mass:

Miss Dorothy Elizabeth Florence,  
daughter of Mr. and Mrs. Romanus  
Florence, of near Emmitsburg, and  
Martin Andrew Redding, son of Mr.  
and Mrs. Edward J. Redding, near  
Gettysburg, were married at a nuptial  
mass at St. Joseph's Catholic church,  
Emmitsburg, at 8 o'clock this morning  
(May 15). The ceremony was performed by the Rev.  
Father Charles Stouter, assisted by the Rev.  
Father William J. Groeninger.

The couple was attended by Miss  
Loretta Mary Florence, a sister of  
the bride, as a bridesmaid and L.  
Donald Redding, York, a brother of  
the bridegroom, as best man.

The bride was graduated from  
St. Joseph's high school, class of  
1932. Mr. Redding was graduated  
from St. Francis Xavier parochial  
school here. He is manager of Mil-  
ler's auto supply store, Chambers-  
burg.

Upon their return from a wedding  
trip to Canada and Niagara Falls,  
the couple will reside in Gettysburg.

F. E. Hammaker President of  
Church Group: The twenty-seventh  
annual convention of the first dis-  
trict of the Adams County Sabbath  
School Association was held Sunday  
afternoon and evening in St. John's  
Reformed Church, New Chester.

Miss Ellen E. Tipton, county sec-  
retary, reported total enrollment in  
the schools of the district was 3,075  
last year while this year the total is  
2,937, showing a decrease of 138.

T. J. Winebrenner, county treas-  
urer, urged the schools to continue  
their financial support; Miss Maude  
Whiteleather, county young people's  
superintendent; Rev. D. F. Putman,  
county superintendent of Christian  
education, and Dr. M. H. Fischer,  
county superintendent of school ad-  
ministration, spoke briefly.

Officers elected for the ensuing  
year were Frank Hammaker, pres-  
ident; Herbert Zepp, vice president;  
Mrs. Annabelle Boyd Little, sec-  
retary; Miss Ellen E. Tipton, treas-  
urer; Mrs. Milton R. Remmel, su-  
perintendent children's division;  
Miss Florence Slonaker, associate  
superintendent young people's divi-  
sion; John Knickerbocker, superin-  
tendent adult and school adminis-  
tration, and the Rev. H. S. Fox, su-  
perintendent Christian education.  
Cedric Tuberg and Robert Hanson  
were in charge of devotions for the  
evening session.

Fairfield High Will Graduate 11  
On May 20: The Fairfield High  
school will graduate eleven seniors  
on Tuesday evening, May 29, at 8  
o'clock. L. J. Fitzpatrick, principal,  
announced today. The exercises  
will be held on the school campus.

A new type of commencement will  
be presented. A pageant commem-  
orating the hundredth anniversary  
of public education in Pennsylvania  
will be presented. Instead of only  
members of the senior class partici-  
pating, this event is being made a  
school project. More than eighty  
pupils will take part in the various  
episodes.

The members of the graduating  
class follow: Robert Geigley, pres-  
ident; Donald Lowe, vice president;  
Hester Sowers, treasurer; Elizabeth

### EXAMPLES

From earliest life we have ex-  
amples placed before us as guides to  
growth and happiness. The story of  
any nation is the story of its great  
and inspiring men and women. Like  
stars these examples shine with un-  
diminished glory and light.

We know that we can attempt  
great things because others have  
done so and succeeded. We also  
know that others have had to go  
through disappointments, struggles  
and many a defeat, before their  
goal was attained. Thomas A. Edi-  
son's last public message was as  
follows: "Be courageous! I have  
lived a long time. I have seen history  
repeat itself again and again. I  
have seen many depressions in busi-  
ness. Always America has come out  
stronger and more prosperous. Be  
as brave as your fathers before you.  
Have faith! Go forward."

Here was a man whose work  
stands out as an inspiration to the  
entire world. We can well imitate his  
example. Edison never got dis-  
couraged. He had great faith. In  
his experiments he failed time and  
time again, but he worked on—  
tried and tested scores and scores  
of times, until a final victory was  
his. He was always studying out  
some way to benefit people so as to  
make life more comfortable and  
livable.

Whenever we witness some one  
else achieve a notable objective we  
are inspired to do the same. In  
sports those who aspire to get to  
the top, study those who have  
reached the top. We all learn and  
grow through example. Many a  
small boy wants to grow up and be  
like his Dad! There are no more in-  
spiring books than the biographies  
of great men and women.

Each one of us is influenced by  
the thought and acts of those about  
us, and from each we may select the  
good and thus improve our own  
lives. I once heard a college profes-  
sor, who was an American immi-  
grant, state that his great example  
was Abraham Lincoln.

Tomorrow Mr. Adams will talk on  
the subject: "Beauty."

### GETTING AND GIVING

Getting and giving are weary  
tasks;

Give and lendin'—delight us  
more.

Much the strife for possession  
asks,

Leaving us battered and  
bruised and sore.

He that labors for selfish  
gold

Soon grows old.

Taking and keeping are duties  
stern,

Sapping the strength of us day  
by day;

Fiercely the fires of our ardor  
burn,

Eating our glorious youth  
away.

He that fights for a selfish  
prize

Soonest dies.

Having and holding exhaust us  
all;

Deeply stamped are their lines  
of care.

Ceaselessly for ou. strength they  
call,

Stripping our souls of their  
garments fair.

He that battles for  
self-renown

Soon breaks down.

Giving and lending are joyous  
tasks,

Keeping us youthful and blithe  
and strong.

Kindness but little of courage  
asks

And its days are fair and its  
life is long.

Not he that gains, but he  
that gives

Longest lives.

ADVERTISE IN THE TIMES

## ARMY HEARINGS MAY OR MAY NOT RESUME MONDAY

By JAMES MARLOW

WASHINGTON (AP)—Even Thurst-  
on the magician would get eye-  
strain trying to watch the rabbit  
to see what hat it was in in the  
Senate investigation of the Army-  
McCarthy fight.

The hearings, which started  
April 22, seemed all but dead last  
Monday after they were shut down  
for a week. They're supposed to  
start up again next Monday. That's  
no sure bet.

The inquiry began as an at-  
tempt to find out who was lying—  
Secretary of the Army Stevens and  
his aides—in their bushel bas-  
ket of charges and countercharges.

But now McCarthy says that  
from his viewpoint "the all-import-  
ant thing is the motive—who start-  
ed this, who is responsible for the  
Army charges."

### Stevens Started It

After some confusion on who did  
start it, Stevens yesterday said he  
was responsible. He'll probably  
have to repeat that under oath.  
If and when he does, McCarthy  
may say he's still not convinced.

If he insists finding the motive  
takes precedence over finding the  
truth or falsity of the charges, he  
may use it as a reason for walk-  
ing out without testifying.

No one yet has explained how  
the Senate subcommittee making  
the investigation could force Mc-  
Carthy to testify or even attend  
the inquiry if he didn't want to.  
He couldn't be arrested and  
brought in.

### Can't Be Arrested

McCarthy is in Washington on  
Senate business. And under the  
Constitution no senator can be ar-  
rested while serving as a senator  
except for treason, a felony or a  
breach of the peace. However, he  
has never said he wouldn't testify,  
and he has taken the stand once  
briefly already.

Yet after all this time only two  
of the main witnesses—Stevens  
and Army Counselor John G.  
Adams—have been called on for  
full testimony and neither of them  
has finished yet.

Four main witnesses remain to  
be called: McCarthy; his subcom-  
mittee's chief counsel, Roy M.  
Cohn; his chief of staff, Francis  
P. Carr; and H. Struve Hensel,  
assistant secretary of defense.

### Many May Be Called

Before they ever finish, if the  
hearing lasts that long, squads  
of other witnesses undreamed of now  
may be pulled into the case.

Nevertheless, Sen. Mundt (R-  
SD), acting subcommittee chair-  
man who said the hearings will be-  
gin again Monday, predicted they'd  
wind up in about 10 days after  
that.

That may turn out to be as  
dreamy as the predictions made  
before the hearings started the  
first time: that they'd be over in  
10 days or two weeks.

## Vietnamese Poet In Geneva Ends "Fast"

GENEVA (AP)—Vo Song Thiet, 45-  
year-old Vietnamese poet, took a  
few sips of fruit juice and liquid  
foods today to end the "death  
fast" he started 16 days ago.

He said he hoped his fast would  
be helpful in bringing the warring  
parties in Indochina together in  
peace. He was taken to a Geneva  
hospital early today by police, who  
had watched him grow steadily  
weaker in recent days.

Nurses at the hospital said that  
while Vo accepted the liquid foods  
offered him, he seemed to be do-  
ing it "only to please us."

which is less than that of the  
present city of Pittsburgh.

Philadelphia counted \$1,009  
inhabitants—some 8,000 less  
than the Harrisburg of today—  
while Allegheny County with  
16,087 had fewer inhabitants  
than either Ambridge or Mc-  
Kees Rocks of 1950.

Lancaster, the Geography  
noted, was the seat of govern-  
ment of the Commonwealth and  
the largest inland town in the  
United States. Its population  
in 1800 was 4,292.

The century and a half-old  
geography also notes that in  
Pennsylvania snow lies on the  
ground but a short period in the  
winter, and that sleighs are but  
little used. "This is, however,"  
the author remarks, "generally  
a healthy country, and has but  
few peculiar diseases."

Our commerce at the turn of  
the 18th century apparently fell  
somewhat below recent records  
since the value of the exports  
from the State in 1799 was  
\$12,431,967 largely in foreign  
goods, which may be contrasted  
with the \$22,000,000,000 of in-  
dustrial products recorded for  
1952.

## OBJECTIVES OF

(Continued from Page 1)

have changed since 1914. "Where  
at one time the reserve was keyed  
to meet emergencies it is now  
utilized as a control device. There  
has been some consideration given  
to changing the nature of reserve  
requirements."

Dr. Stokes said that formerly the  
Federal Reserve System was op-  
erated to preserve the gold stand-  
ard, "while now the shift is to  
preserve the economy." "During World War II," he de-  
clared, "the Federal Reserve,  
through purchase or sale of gov-  
ernment securities, tended to sta-  
bilize the yield on government se-  
curities. That practice tended to be  
inflationary."

"By any yardstick," Dr. Stokes  
predicted, "1954 will be a good  
year in terms of other years, even  
though it may not approach the  
boom of 1953. We are still in a  
period of good times."

The speaker disclosed that ap-  
proximately \$29.7 billion dollars in  
coins and paper money is now in  
circulation in addition to \$111 bil-  
lions in demand deposits, \$44 bil-  
lions in time deposits in com-  
mercial banks, and \$22 billions in  
gold. He reasoned that since most  
of the nation's money supply  
originates by bank loans, "then  
anything which would influence the  
money supply will affect the eco-  
nomic level."

Dr. Stokes cited Federal Reserve  
System statistics which revealed  
that at the end of 1953 the number  
of banks had declined to 14,509,  
while the number of offices has  
increased to 20,406. He explained  
the decline as due to the absorp-  
tion of smaller banks by more  
powerful institutions.

He said that 1,867 state banks,  
in addition to all national banks,  
are now members of the Reserve  
System. This group was said to  
hold practically 85 per cent of the  
total deposits of all the banks in  
America. He stated that of 4,856  
national banks, 1,767 hold permits  
to exercise trust power.

The next meeting of the associa-  
tion, designated as "Ladies Night,"  
will be June 16 at Ardenstville,  
starting 6:30 p.m. Judge W. C.  
Sheely will be the speaker.

## ACCUSED YOUTH TAKES STAND IN HIS OWN DEFENSE

By BEN DEFOREST

WARREN, Pa. (AP)—Norman W.  
Moon, charged with murder in the  
courtroom slaying of a judge, took  
the witness chair today to fight  
for his life.

The 28-year-old defendant non-  
chalantly crossed his legs and  
clasped his hands in his lap as he  
told of his childhood, his Air  
Force service during World War  
II, and his marriage.

He cleared his throat continually  
and twice asked for sips of water.  
Chief Defense Atty. Samuel D.  
Braemer constantly cautioned  
Moon to raise his voice and to  
speak slower.

Moon, of Connellsville, Pa., is  
charged with shooting to death  
Judge Allison D. Wade last Jan.  
13. He is on trial in the same  
courtroom in which the judge was  
slain.

### Flew 20 Missions

Moon told the jury he flew 20-  
some bombing missions over Ger-  
many during World War II as a  
tail gunner in the Air Force. He  
said he married Janet Schwab, of  
Tidioute, Pa., in 1949. Moon then  
told the court of a number of  
spats he had with his wife.

Moon was called before Judge  
Wade the day the judge was shot  
to explain his failure to keep up  
support payments for his wife.

His mother, Mrs. Fred Moon,  
first witness called as the defense  
opened its case yesterday, testified  
Moon's broken marriage affected  
him deeply and said he "seemed  
to think there was nothing for him  
in life."

Mrs. Moon said her son spoke of  
"taking his life" a few days be-  
fore Judge Wade was shot. She  
added:

"He wasn't feeling well and  
seemed to be in a deep, heavy  
sleep when he went to bed. It  
wasn't a natural sleep. He could  
hardly get up in the morning."  
Mrs. Moon testified her son's  
had a violent temper and often  
flew into tantrums.

## YANKEES HOME FROM HIGHLY SUCCESSFUL TRIP IN WEST

By BEN PHLEGAR  
AP Sports Writer

The world champion New York Yankees came home today from a triumphant Western tour during which they beat the strongest teams in the American League on their home grounds 8 out of 10 times.

With a dozen games immediately ahead against the Eastern tailenders, this looks like the big Yankee push to the top.

The champs are one game behind Cleveland at the moment, but now it's the Indians' turn to take on the Western powers. New York is the only team in what the American League calls East — Baltimore is West — above sixth place.

**Cards Fourth To First**  
On the invasion just ended New York was the only traveling team with anything like a winning record. Washington won 3 of 9; Boston, 2 of 10; and Philadelphia, 1 of 8.

The Western teams showed the power in the National League too, but here they were the invaders instead of the home teams. Three of the four broke even or better in the East.

The St. Louis Cardinals jumped from fourth to first with a 6-3 record. They have a single Eastern game left tonight as they stop off in Pittsburgh for a makeup contest with the Pirates.

**Braves Move Up**  
Milwaukee also won 6 of 9 and moved from seventh to fourth. The Chicago Cubs broke even at 5-5. Only Cincinnati faltered, losing 6 of 9.

With the teams traveling, just one other game in addition to the Cards-Pirates encounter is on tonight's schedule. The New York Giants open a five-game set at Philadelphia.

St. Louis grabbed the National League lead yesterday on the combination of a 3-0 victory over the Giants and defeats for Brooklyn and the Phillies. The Cubs swamped the Dodgers 9-3 with all nine runs coming in the eighth inning. Milwaukee defeated Philadelphia 6-2. Pittsburgh shaded Cincinnati 3-2.

**Raschi Wins For Cards**  
The Yankees made two straight over the White Sox 3-2. Cleveland won its seventh in a row, 5-3 over Boston. Baltimore beat Washington 5-3 and Detroit edged the Athletics 4-3.

Vic Raschi, branded as too complacent to stick with the Yankees this season, pitched his first National League shutout and his fifth consecutive victory for the Cardinals. He retired the last 15 Giants in order after giving up five singles in the first five innings.

The Dodgers continued their inept hitting and added poor fielding and shaky pitching in losing to the Cubs. Chicago scored its ninth runs with only three hits. Brooklyn chipped in with three errors and the Cubs were given four bases on balls. The big blow was a three-run homer by Dee Fondy. Carl Erskine, leading 2-0 until Fondy's smash, was the loser.

**7th For Mathews**  
Pitcher Warren Spahn led an 11-hit Milwaukee attack on three Philadelphia hurlers with two doubles and a single in winning his fourth game. Eddie Mathews helped out with his seventh home run, this one with one aboard.

A single by center fielder Dick Hall with the bases loaded in the fifth drove in the two runs the Pirates needed to beat Cincinnati. Chico Carrasquel, the White Sox shortstop, got the shakes against the Yankees in the last two innings and the Yanks came from behind to win. In the eighth, with a man on first, Chico let Hank Bauer's double-play grounder roll through his legs and Bauer later scored the tying run on Yogi Berra's single.

In the ninth with one out and runners on first and third, Enos Slaughter hit to Carrasquel, who had the choice of throwing to the plate or starting a double play. But he fumbled the ball and by the time he recovered his only play was a force at second while the winning run came home from third.

Bob Lemon picked up victory No. 6 for Cleveland as he allowed the Red Sox just four hits. Two errors by Milt Bolling gave the Indians two unearned runs in the eighth.

Detroit overcame the Athletics in the ninth when Al Kaline singled after the Tigers had loaded the bases without a hit.

The Orioles, whose hits this spring have been few and far between, bunched six singles after two were out in the sixth to score four runs against Washington.

## CARMINE FIORE DEFEATS BLACK

DETROIT (AP) — Cy Ciscio is a reasonable fight manager, which is something of an oddity.

His belter from Brooklyn, Carmine Fiore, scored a unanimous 10-round decision last night over Jack Black of Janesville, Wis., and not once—no, mind you—did Ciscio clamor: "We want the champ next!"

He merely said: "Maybe now they'll rank my boy."

This refreshing twist followed an impressive performance by Fiore, who is unranked among the welterweights. Using a solid left, he twice floored Black for eight counts to pile up an impressive margin on the cards of all three officials.

It was Fiore's eighth straight win and ended Black's string of 27 fights without a defeat. The Army-bound Black was surprised by a wild left in the third round. He was up at the count of two, ready to go, but referee Jack Swartz said, no, you must take a mandatory eight count.

## East Berlin High Golfers Defeated

### GAME RAINED OUT

The Gettysburg-Bucknell baseball game scheduled for here this afternoon was cancelled due to rain. As the result of the cancellation the Bullets have completed their season with a 10-2 record, one of their best in many years.

## Ball Club Hires Detective To Shadow Player And 'Eye' Winds Up In Jail; Charged

PHILADELPHIA (AP) — Second baseman Granny Hamner of the Philadelphia Phillies demanded a showdown with owner Bob Carpenter today over what he termed the "Gestapo tactics" of having players trailed by a private detective.

Carpenter disclosed yesterday he had hired a private detective to check on the aftergame habits of some of his players. The owner spoke up after a private investigator was arrested Tuesday night when Hamner reported to police he was being trailed.

"I resent this and I intend to do something about it," the 27-year-old player said today. "The stuff of treating me and other ball players like two-year-olds is going to wreck our club. We can win the pennant. We have a better team than in '39 when we won."

"But this uncalled for Gestapo tactic will ruin our chances if they're not cut out right away," Hamner asserted.

By TOM BRADSHAW  
PHILADELPHIA (AP) — The ball club hired a detective to shadow its second baseman and the private eye wound up in the clink.

That could be considered a rather humorous situation except that a lot of people in the business are wondering how long this sort of thing has been going on and how general it is in the baseball world. The ball club involved is the Philadelphia Phillies of the National League. The second baseman is Granville Hamner. The private eye identified himself as Charles Leland, 36, working out of Wilmington, Del.

**Called For Police**  
The story "broke" yesterday afternoon when it was revealed Leland had been taken in custody on Hamner's complaint someone followed him home from the Phillies' ball park after the Tuesday night game.

Hamner said he left Connie Mack Stadium, climbed into his gray Cadillac and drove off a parking lot. He told the cops he observed another car following closely.

And, said Granny, when he

parked at home and went into the house, he saw this other automobile round a corner, then drive past the Hamner house once more.

At that point, Hamner telephoned police and they arrested Leland.

**All A Mistake**  
They found a .32-caliber revolver and a .38 target pistol in his car.

Leland said he was employed by the Brandywine Investigation Agency in Wilmington and that the whole situation was a mistake. He said he had been instructed to follow an Air Force man driving a two-tone gray Cadillac in connection with a divorce action.

Leland, according to Detective Sgt. James Teevins, said he followed such a car from Philadelphia's International Airport to a parking lot near the ball park. Then, he said, when Hamner drove off later, he followed—thinking he was still on the trail of his divorce case suspect.

Leland was arraigned before Magistrate William Hagen and held in \$500 bail on a charge he violated the Uniform Firearms Act.

**"Most Of Them Do It"**  
Then, Phillies owner Bob Carpenter exploded a bombshell.

"This was no case of mistaken identity," Carpenter announced in a statement. "It was a case of my employing a detective agency to check on some of my players."

And he added: "Most major league clubs follow the same policy. Each year I have checked on my players both at home and on the road, so that I could be assured that our rules of midnight curfew after day games, and 2 a.m. curfew after night games would be observed."

Officials of several other clubs, asked to express their views on the subject, declined to comment immediately.

Three teams are tied for first place in the Softball League with 2-0 record as the result of victories gained by the Texas Lunch and VFW Wednesday evening.

The Texas Lunch was forced into an extra inning before edging the American Legion 5-3 in a tight, well-played opening game. After the score was deadlocked at 2-2 at the end of the sixth inning, Timbers opened the top of the seventh for the lunchmen with a homerun. The Legionnaires came right back to tie the count on a double by Crist and single by T. McEnrick. In the eighth frame Frying and Fissel singled. Ketterman skied out and Frying was cut at the plate on Kennell's fielder's choice. A two-base error on Timbers' rap allowed two runs to score.

A seven-run third inning enabled the VFW to defeat the Elks 12-7 in the second game.

The Vets were outthit 11-9 by the Elks and three of the Elks' hits were homeruns, two by Carbaugh and one by Woodward.

## York Springs Cops 1st League Victory

York Springs snapped a three-game losing streak in the Bi-County Baseball League by edging White Hill 5-4 Wednesday evening, the game being halted after four innings due to the time curfew.

The rain was uncalled for in official forecasts, which now declare it will continue at least until tomorrow.

The prospect of a muddy or slow track increased the favorite's role already assigned Robert S. Lytle's Correlation in the second leg of horse racing's triple crown.

**Hasty Road Entered**  
While Correlation has shown a liking for an off track, the performance of Hasty House's Hasty Road, the other favorite, on anything except fast footing was questionable.

Correlation and Hasty Road, who finished in that order in Monday's Preakness Prep, separated by only a head, were entered yesterday with Howard A. Jones' For Free and Sunny Blue Farm's Admiral Porter.

Named today, as expected, were Maine Chance Farm's Jet Action, Mrs. Ala L. Rice's Ring King, T. A. Sears' Nigral Lad, Walmar Farm's Hasseyampa, Joe W. Brown's Gigantic, E. M. O'Brien's Galdar, and Woodvale Farm

# ARMY MENTAL PATIENT HOLDS FARM FAMILY HOSTAGE 5 HRS.

GOSHEN, Md. (AP)—A knife-wielding man, believed to be an escaped Army mental patient, was reported today to have held a farm tenant family hostage for six hours before slashing the mother and a child and escaping in a stolen truck.

Montgomery County police said Mrs. Adele Thomas, 32, reported that a man clad only in blue pajama pants and horn-rimmed glasses entered her house yesterday and slashed her across the stomach and chest when she couldn't keep her five children quiet.

**Slashed Daughter**  
She said the intruder also slashed her 5-year-old daughter Barbara Lee above the eyes. Charles Thomas, 33, father of the

family, was away at the time. He returned later and took his wife and daughter to a hospital.  
Police said they believed the intruder was Pvt. Fred C. Pierrou, 24, of Silver Spring. Officials of the Army's Walter Reed Hospital in nearby Washington reported that Pierrou scaled a 10-foot metal fence yesterday morning and escaped from the exercise court of the hospital's neuropsychiatric ward.

Within a short time after his escape, police said, Pierrou slugged two motorists with a pipe. They said he commandeered a laundry truck after hitting the driver and that he later transferred to a passenger car after slugging its owner into unconsciousness.

## DEPLORES LACK OF PROTESTANT RECRUITS IN U.S.

ONEONTA, N. Y. (AP)—Methodist Bishop Fred Pierce Corson holds that the Protestant church is failing to recruit sufficient new members and to provide adequate Christian education.

Bishop Corson, leader of the Philadelphia Methodist area, yesterday cautioned fellow Methodists against being lulled into inactivity and added:

"The truth of the matter is we did not take in enough members this year and yet there is a greater interest in religion than ever before."

The bishop addressed the opening session of the annual meeting of the Wyoming Methodist Conference, which includes about 300 churches in New York and Pennsylvania. About 400 delegates are attending the five-day meeting.

He said that it was necessary for the church to attract "new members and train them—something we have neglected in the Protestant churches."

Membership Drops  
Bishop Corson's speech followed a report by the Rev. Dr. Earl V. Tolley of the Binghamton District, who said that the total membership in the conference during the 1953-54 church year had dropped 177 to 86,626.

Dr. Tolley said the decline had occurred despite new church enrollments totaling 6,640 persons, the highest figure in six years. The conference approved a report by its Social Welfare Commission that criticized as inadequate New York and Pennsylvania programs for handling juvenile offenders. Delegates adopted a resolution urging all churches to confer on the problem with social workers and responsible officials.

**EDUCATOR DIES**  
SMITHPORT, Pa. (AP)—Joseph G. Masters, 61, prominent educator and founder of the National Honor Society, died yesterday at his home near this northwestern Pennsylvania community. ## Invalid Dies In His Blazing Home

SCRANTON, Pa. (AP)—A 62-year-old South Scranton invalid died in his blazing home last night as neighbors barely succeeded in rescuing his wife.

George Kelly died in his bedroom as fire gutted his 1 1/2 story bungalow. Rescuers were unable to reach Kelly as fire and smoke filled the room after they removed Mrs. Nellie Kelly, 67. The wife was taken to Scranton State Hospital where the attendants said she suffered shock and burns of both arms.

Cause of the fire was not determined.

Paintings which have been found on the walls of European caves were put there by Cro-Magnon man as much as 30,000 years ago.

## SUGGESTS FREE PILLS TO HELP T.B. PATIENTS

ATLANTIC CITY, N. J. (AP)—A health official says a New York plan of passing out free pills to tuberculosis patients in clinics helps to cut down spread of the disease.

Dr. Arthur Robins, director of New York City's TB Bureau, recommended the New York experiment be extended throughout the nation.

He suggested to the National Tuberculosis Assn. convention today that public health agencies set up free drug systems for unhospitalized persons with the lung illness.

**Prevents Spreading**  
Robins said such a system offers opportunity not only for improving the condition of a large proportion of TB cases who can't or won't enter a hospital and stay there, but also for minimizing the danger of their spreading infection among the public.

The pill, newest of the anti-TB drugs, are isoniazid, and paraaminosalicylic acid. They are taken by mouth.

Robins emphasized that he suggested the system not as a substitute for hospital care of TB patients, but as a supplement to it.

The New York leader said similar studies are now being made in Cleveland, Chicago, Pittsburgh and Philadelphia.

Dr. Donald S. King, president of the American Trudeau Society, medical arm of the N. T. A., told

## EVACUATE 110 WOUNDED FROM DIEN BIEN PHU

By LARRY ALLEN  
HANOI, Indochina (AP)—Evacuation of wounded from Dien Bien Phu had climbed today to 110 men as helicopters and light planes kept up their steady shuttle to the captured fortress.

(A French Press Agency dispatch received in Paris said about 120 more wounded were expected

reporters yesterday the Veterans Administration was considering such a plan to treat TB cases outside veterans hospitals.

to arrive in Hanoi today.)  
Despite the slowness of the helicopter lift, the French hoped to complete in less than two weeks the removal of the 753 wounded the Vietnamese said they would release.

French military sources said they knew nothing about rebel plans to release Dien Bien Phu's lone French air force nurse, Miss Genevieve de Galard Terraube, as announced by a Vietnamese spokesman in Geneva yesterday.

**Will Nurse Wounded**  
Here in Hanoi, friends of the blue-eyed, 29-year-old nurse expressed belief she would remain at Dien Bien Phu, nursing the wounded until the last of the 753 is flown out.

The wounded are being taken to the royal Laotian capital of Luang Prabang and relayed by Dakota transport to Hanoi. Here they are rushed to huge Lanessan military

hospital. Many are in such serious condition they require immediate operations.

In Saigon, the Cao Dai religious sect's tough private army, estimated at more than 10,000 men, was formally integrated today into the growing Vietnamese national force.

But a government announcement left some doubt whether the religious force is actually serving with the national army. It said the protocol signed today would "serve as a basis for the nationalization of the Cao Dai forces." This indicated that although the Cao Dai agreed to the principle, the concrete steps remain to be taken.

Until now the force has served under nominal French control as a supplementary force. They received their pay and supplies from the French.

Meanwhile, the French stepped up their air assault on Provincial

## MINISTERIUM PROPOSES TO SLASH BUDGET

BUCK HILL FALLS, Pa. (P)—A 5.14 per cent reduction in the proposed 1955 budget has been decided upon by the Evangelical Lutheran Ministerium of Pennsylvania.

The move, worked out at a meeting here, sets total money to be raised at \$1,646,918, a modification over the originally proposed budget. Of these funds, \$1,046,171 would go to the United Lutheran Church

in America and \$601,747 to the ministerium.

The decrease resulted from a proposal by the Rev. Christian Schenck of Philadelphia that a safety factor be computed only on the ministerium budget. The ULCA factor in the budget, one assigned to the ministerium, already has a factor in the budget, one assigned safety factor, he told the convention.

**Approve Segregation Ban**  
In a resolution, the ministerium also welcomed the U. S. Supreme Court decision banning segregation in public schools and urged its congregations to continue to work against barriers of discrimination and prejudice.

It was announced also that the Apostles Lutheran Church of Phila-

delphia was being deeded to the purpose of establishing mission Ministerium of Pennsylvania for work among Negroes in areas adjacent to the church. The present congregation is also providing a fund for maintenance of the church. It was announced, and will attend other churches, since most of them live in other areas.

The ministerium also gave its approval to the Women's Committee of the Board of Home Missions to seek funds toward the establishment of a home for unwed mothers.

## "ALL WELL" SAYS BRITISH SUB, REPORTED LOST

LONDON (P)—The British submarine Scorch was reported lost for a short time in the English Channel today but came to the surface under its own power and signalled "all is well."

The scare occurred after surface vessels and other submarines lost contact with the Scorch in the course of maneuvers off Portland Bill, a cape near Portsmouth.

The signal "sub smash" used when a submarine is in distress, was flashed to ships and naval stations.

Flashing the dreaded signal was a routine precaution, an Admiralty spokesman said.

**Lost Radio Contact**  
"Radio contact with the Scorch was lost while the vessel was submerged," an Admiralty officer said. "Apparently the Scorch was unable to restore contact immediately. Thereupon, in accordance with prescribed routine, the submarine rose to the surface and

## 4 Trustees Elected At Methodist Meeting

HARRISBURG (P)—Two ministers and two laymen today were elected trustees at the annual meeting of the Central Pennsylvania Conference of the Methodist Church.

Elected at the second day of the five day 15th annual meeting were The Rev. Charles F. Berkheimer, Sunbury, Sunbury District superintendent; and Ralph E. Boswell, Harrisburg; and Roy C. Peterman, Williamsport.

They will serve three year terms. The Rev. Mr. Berkheimer and the Rev. Mr. Gl-sco and Boswell were re-elected to the board.

More than 900 ministerial and lay delegates were reminded last night that "Christianity is a kingdom that has no end or no geographical frontiers."

reported as quickly as possible that it was in no danger."

The Scorch, an 814-ton vessel, normally carried a crew of 44. An extremely maneuverable craft, it is capable of swift dives. It participated in the search for the submarine Affray, which sank off the Isle of Wight with the loss of 75 officers and men in April 1951.

## FINE, CADETS SEE AIR SHOW

INDIANTOWN GAP, Pa. (P)—Gov. John S. Fine and 600 cadets from the Valley Forge Military Academy yesterday watched a display of the power of the Pennsylvania National Guard air and ground forces here.

Highlight of the program in honor of the cadets' visit was the dropping of practice bombs and supplies by parachutes onto the field from single and twin-engine aircraft.

A formation of four F86 Sabre jets from the 112th Fighter-Bomber Group, based at Greater Pittsburgh Airport, flew over the installation near Lebanon at speeds in excess of 600 miles per hour.

Several tanks were put through their paces to demonstrate maneuverability and three amphibious "ducks" staged a demonstration at Memorial Lake.

In addition to top ranking PNG officers, on hand also were Brig. Gen. Hugh P. Harris, chief of staff of the U. S. 2nd Army, and Brig. Gen. Theodore L. Futch, commanding general of the Pennsylvania Military District.

## Committee Approves Most Of Ike's Plan To Expand S.S.

By CHARLES F. BARRETT

WASHINGTON (AP)—The House Ways and Means Committee late yesterday approved most of President Eisenhower's proposals for expanding social security coverage. And today it turned to White House requests for higher benefits, with another okay generally expected.

The committee lined up yesterday behind proposals to make more than seven million persons who are excluded now eligible for federal retirement and death benefit insurance.

The committee obviously was in a mood to extend the system, now covering some 70 million persons, to almost all the nation's working force. The committee so far has voted to add about 270,000 more persons than Eisenhower requested.

**Extend Coverage**

Compulsory coverage was voted yesterday for about 3,600,000 farm operators and about 500,000 doctors, lawyers, dentists, engineers, accountants and other professional groups—despite strong opposition by some, notably the American Medical Assn.

Members said the closed-door vote to bring in doctors was 12-8.

And the committee voted to make coverage available for about 3,200,000 state and local government employees who have been excluded because they already have some sort of local retirement system. Under the new proposal, they could have both.

To come under the federal sys-

tem, a majority of state and local employees in any separate group would have to participate in a referendum, and two-thirds of those voting would have to agree. Then coverage would be compulsory for all in that group.

The requirement that a majority must participate in the referendum was not included in the administration bill, but administration officials said they did not oppose it. The committee also voted to include firemen and policemen, who were not included in the administration bill.

The committee deferred action on an administration request to provide compulsory coverage for about 2,600,000 farm laborers now excluded. But it is expected to approve that step, after working out technical details.

Taking up section by section the bill by Chairman Daniel A. Reed (R-NY) the committee scheduled consideration today of benefit increases.

The administration proposal would hike minimum monthly payments to some six million persons already on the rolls from \$25 to \$30, and the maximum for a single retired worker from \$85 to \$98.50.

For millions retiring in the future, the maximum would go up to \$113.50. Dependents and survivors would get similar boosts, with the maximum for one family jumping from \$168.75 to \$190.

Benefits are based upon average monthly wages under the system.

# DESIGNER SAYS CLUBLADY MUST DRESS SMARTLY

The Associated Press  
A successful clubwoman should look the part, says Hannah Troy, New York designer noted for the understated good taste of her costumes.

"The outside clubwoman in the flowered dress and garden party hat has been the object of cartoon jokes too long," says Mrs. Troy. "Actually America's 30 million clubwomen are mostly smart, alert leaders of their communities. They are the girls who get things done when there's a new school bond to be voted or a juvenile delinquency

problem to be licked.

**Cultivate Neatness**  
"Usually they know all the tricks of grooming and smart appearance. But sometimes they're too busy to pay much attention to their looks. This is a mistake. A woman who knows she is correctly dressed for the occasion is going to make a more effective speech or rostrum appearance than the one who remembers too late that her gloves are not quite clean and that she has a run in her stocking."

Here are some tips on correct dress for women in the public eye, as outlined by Mrs. Troy:

Never overdress. For instance, don't make the mistake of wearing an elaborate cocktail dress to a luncheon.

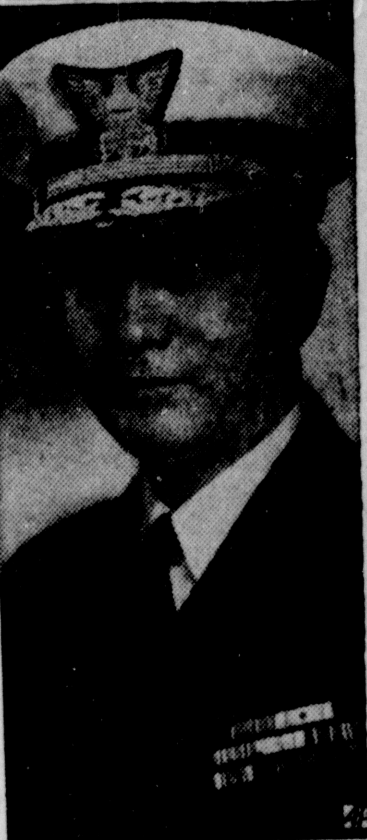

Women who have to make a lot of public appearances have learned the trick of keeping the dress simple and achieving a feminine touch with a frivolous hat.

A dark, solid-color dress or suit

is the safest bet for the smart clubwoman. The dress should be cut on simple lines, with a flattering neckline, not too low. It may be dressed up or down with accessories, as the occasion demands.

Be sure that all your accessories, such as gloves, scarf, blouses, hat and veil are handbox fresh. Your hair should be perfectly groomed, your makeup carefully applied, the seams of your stockings straight, shoes and handbag well-brushed or polished. These may seem unimportant details, but they are the ones always noted by the sharp eyes of a feminine audience.

# BABIES ENJOY BATH EXERCISES

The Associated Press  
Bath exercises for your baby can make his daily tubbing a pleasure. What's more, you can combine his exercises with skin care for a double dose of beauty.

After the bath, place your little tot on a dry bath towel on a well-padded table. Cup baby lotion into each hand and softly stroke your palms over his entire body talking soothingly to him as you stroke. After he is coated with the lotion, take an extra few minutes for a few simple arm and leg movements.

**Ready, Exercise**  
Let him close his small fists around your fingers, then gently,

rhythmically move his little hands from the center of his chest position out to the table surface. Do this two or three times.

Gently hold one foot; stretch it out straight, then bend it back so the knee touches his chest. Do this two or three times to a regular rhythm. Now repeat with the other foot.

**Enjoy Workout**  
Most babies learn to love those few moments when Mom exercises their arms and legs, particularly if a little song or rhythmic chant accompanies each movement. You will notice after Mom pauses that the baby will kick, wave his hands and grab hold of his own feet. He'll adore these few minutes when he gets undivided attention at play.

When bathing and smoothing a baby's skin, use as many fragrant toiletries as possible. Little tots adore sweet smelling things, so soaps

## March Calves Have Advantage Over Those Of May Or June, Declares County Farm Agent

By FRANK S. ZETTEL  
Adams County Farm Agent

The commercial beef breeder in Adams County who has his calf crop dropped in March usually is ahead of the breeder with later calves. The cows should be settled by the middle of June in order to have these early calves.

March calves have several advantages over those dropped in May or June. Most important is that they are heavier in the fall when the pasture season is ended. The cheapest gains are realized when the calf is nursing his dam or pasture. As the calf becomes older, he requires more milk. His mother's milk production usually increases when pasture becomes lush in the spring. If the calf is a couple months old, he can use this extra milk. A new-born calf cannot.

The farmer or herdsman has more free time during March than later in the season. This gives him an opportunity to observe more closely his cows at calving time. These early calves can be castrated and dehorned before the cow herd is turned to pasture for the summer.

### Get More Profit

A 450 pound calf in the fall will net the producer more profit than one weighing 300 to 350 pounds. Very often the big difference between the heavier and lighter calves is their age.

Early calving requires early breeding. Producers should strive to have all their cows bred in as short a period as possible. Unless she is an exceptional individual, a shy breeder that will not settle, she should be culled from the herd. A uniform calf crop means that all the cows should be bred in as short a period as possible.

You've heard that expression "Nothing is so permanent as a temporary building." Well, that could apply to many trench silos in Adams County. The trench silo was originally designed as a temporary way of storing silage, but many farmers like them so well that the trench silo is becoming a permanent structure.

The cost of construction is a factor in many trench silos being used. When the trench silo is made of just plain earth... with earthen floor and walls... the cost will be from one dollar to a dollar and a half per ton of silage. But when the floor and walls are lined with concrete blocks, or poured concrete, the cost may go up as high as three dollars per ton of silage.

### Feeding Off Silage

The size of silo will depend on the length of the feeding period and the size of the herd. To keep spoilage at a minimum, it's desirable to feed at least one foot off the face of the silage every five days. To help you

figure the size of the trench silo you'll need, there's a special circular in our office which will give the various sizes and the amount of silage they'll hold.

Location of the trench silo is important. You'll want good drainage away from the silo. Also you'll want it as close to the barn as possible... yet you'll want it constructed so you can get into it for filling, and removing the silage. All of these angles are covered in the special circular available.

Because of the wet weather in this county weed spraying of corn will

be very important. Pre-emergence spraying is even more important if you want to get those grass weeds, such as foxtail and crabgrass. These grass weeds can be killed in corn with 2,4-D only when they are in the seedling stage. After they start to leaf out, 2,4-D won't get them.

### Wait For Corn

The ideal time to put on this weed spray is to delay it until the corn starts to come up. The pre-emergence spray won't hurt corn until the leaves start to unfold. And by delaying the application, more weed seeds will have germinated.

The pre-emergence spray uses a higher rate of 2,4-D than the sprays you put on corn later on. This gives better control of certain weeds, and there is no danger to corn except on sandy soils.

Delay cultivation for two weeks after the pre-emergence spraying. With a well-timed and applied

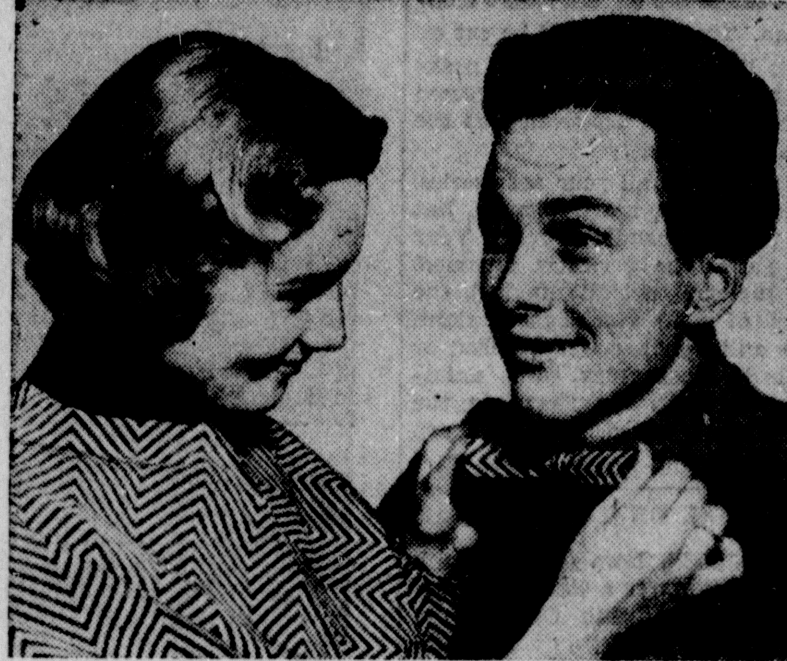

spray, you should not have to cultivate your corn field more than twice.

There's another advantage of using the pre-emergence spray. If for some reason, you don't get good control with it, you can always spray again when the corn is twelve inches high.

For complete details on weed spraying come out to the two demonstration scheduled Friday, 10 a.m. at the farm of Edgar Leer, York Springs R. D., and at 2 p.m. at the farm of Emory Gilt on the Gettysburg-Littlestown Road.

### FAMILY COURT

GREENVILLE, Mo. (AP) — You can witness some old-time battles between lawyers in these parts. And sometimes they are all in the family. Recently, Roy W. McGhee won a couple of theft cases that son Roy W. McGhee Jr. was prosecuting for the county.

# SEES NO WAY TO FORCE MCCARTHY TO TESTIFY IF HE WALKS OUT

By JACK BELL

WASHINGTON (AP) — Sen. Potter (R-Mich.) said today he knows no way senators investigating Sen. McCarthy's row with Army officials could force the Wisconsin Republican to take the stand if he should decide to walk out.

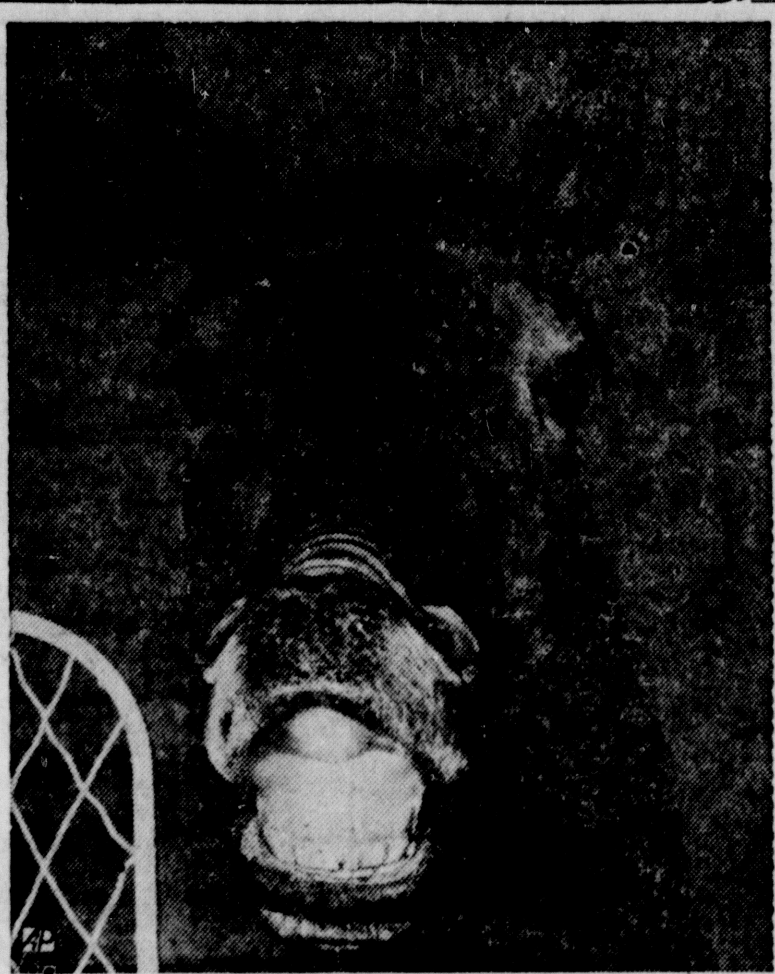

McCarthy has left in doubt the course he may follow when hearings resume Monday.

Potter and several other members of the Senate Investigations subcommittee expressed belief a major obstacle to continuance of the hearings had been removed by a statement from Secretary of the Army Stevens shouldering full responsibility for Army charges against the Wisconsin senator. This followed President Eisenhower's refusal to modify an executive order against some testimony.

## McCarthy At A Loss

McCarthy's complaint about continuing the televised hearings with a "stacked deck" prompted speculation in Congress that he might decline to testify personally and call for what he has characterized as a directed verdict in his favor.

McCarthy told newsmen he is "at a loss on just what to do." The subcommittee scheduled a closed-door meeting this afternoon. McCarthy said he will attend if he's invited. He normally heads

the group, but has stepped off for the duration of this inquiry.

If he does attend the meeting, McCarthy said, he does not plan to ask then for a "directed verdict."

## Want To Hear Principals

Potter said in an interview: "If the McCarthy side says it has disproved the Army's case and proved its own charges through cross-examination and can't go on, in the face of the President's order, I don't know how the committee could force them to."

Any such action by McCarthy would be in the face of Eisenhower's call yesterday for testimony from all the principals — "Let the chips fall where they may" — and demands of Democratic subcommittee members that

all principals be heard in public sessions.

The White House gave added emphasis to the President's news conference remarks by permitting direct quotation of much that he had to say.

Stevens and Army Counselor John G. Adams have accused McCarthy and two aides, Roy M. Cohn and Francis P. Carr, of bringing improper pressure on the Army for favored treatment for a former associate, Pvt. G. David Schine.

McCarthy responded with charges that Stevens and Adams used Schine as a "hostage" in an attempt to shut off an investigation of alleged Communists in the Army. McCarthy told a news confer-

# TOMATO GROWER SAYS FORESIGHT WILL INCREASE YIELD, QUALITY

**The Associated Press**  
There's something about a tomato, ripe and fresh and glistening from the home garden that acts like a magnet to the young as well as the seasoned green thumb.  
Somehow, every vegetable garden plan seems to reach out its stark lines and melt into a catsup-like embrace around the garden dreamer.

Here, as well as in the rest of the garden, foresight is better than hindsight.

Make the day before tomato planting the New Year's day of the garden season. Resolve not to overplant.

## Tomato Surplus

My initial effort at tomato growing was such a whopping success from what I considered at the time a minimum number of plants—24—that I became a neighborhood nuisance. The nuisance was begging kind friends to take them off my hands. This was in addition to some canning and catsup making done by the distasteful side of the family.

An amendment to the resolution should be to stake the tomato vines securely with firm sticks. A heavy laden tomato plant can topple a spindly stake with no trouble.  
After a few sad experiences along these lines, I adopted the recommended style of the Rutgers College of Agriculture—that of the quadruple-tied pole staking. There were no more trouble on this score.  
Of course if you have a lot of ground, you can let the plants spread without staking. They shade their roots and help prevent the drying out of the ground.

First of course is the start. Buy

yourself some good seedlings from a reliable nurseryman. They're so reasonable it pays to get the best at the start. Make sure of your soil.

Before setting out the plants toss in some well-rotted or dehydrated manure and mix it well into the soil area. Buy plants about six to

## Do "Secret Formulas" Work?

"Secret formulas" do not work. Unfortunately, man is slow to discard his belief in the "magical" or "supernatural." As Thorndyke observed, men have a natural tendency to crave the sensational, exaggerated, and impossible and to fly in the face of both reason and experience.

Every scientific discovery worthy of the name is made known to all physicians as rapidly as possible in order that all mankind may benefit. When you are ill, consult your physician. Then bring your prescription to us for compounding.

10 inches high and set them in the ground a little deeper than the ground level on the seedlings.

Be sure the danger of frost is past—in most areas Decoration Day (May 30) is a good rule of thumb. Water the hole you dig for the seedlings liberally before setting the plant. Water again after planting. Do your planting on a cloudy day.

## Allow For Spread

Set your stakes at least three feet between the rows and about 18 inches to two feet between plants. Put your stakes in before planting. The tomato roots are shallow and spread. If you stake later you may damage the roots. Make your stake six feet in length and driven at least 18 inches into the ground for a firm footing.

As the plants grow tie them to the stakes—strips of your wife's old stockings are good or the manufactured tomato tie tags. Do not use string or wire. It will cut the tender stems.

(Prune the suckers from the stems as they show. You won't be able to do this with unstaked plants).

As you set out the plants try putting a small amount of fertilizer at the bottom of each hole mixing it thoroughly with the soil. Then toss

a small amount of soil atop the mixture. Cultivate lightly and very shallowly just enough to keep the soil loosened and the weeds away. You can keep this up until the plant growth stops you.

## Booster Shot

Spread a ring of fertilizer around each plant in about a six-inch diameter every few weeks until you stop cultivating. It will really give a boost—and tomatoes.

Keep the plants well moistened. Dust the plant with rotenone on occasion. If you see a long greenish caterpillar with white stripes pick him off and destroy him. He'll eat every leaf in sight.

And as your tomatoes ripen pick 'em. But don't do it while the leaves are wet. A good plant should yield you about 12 pounds of tomatoes.

All the plants bear about the same time. Figure out your tomato needs over a short period. You can't make them last on the vine.

There's nothing like the squashy plop of an overripe tomato falling to earth unused and unusable to spoil the season for the home gardener.

A toad may lay as many as 7,000 eggs at a time.

# MOTHER SOLVES BOY'S REVEILLE PROBLEM, AGREE ON MUTUAL PACT

The Associated Press

Do you have early morning troubles in your house?

Getting children off to school isn't always easy.

Larry was in the fourth grade. He liked school but he hated to get up in the morning.

The routine was about the same each morning. Mother woke him up, told him it was time to get up. Fifteen minutes later she did it again, still gently. Then, when it was getting dangerously late, Mother dashed into his room, pulled the covers off him and made him get up.

Now there was only time for a mad dash, clothes yanked on, teeth unbrushed, a bite or two of breakfast gobbled down.

Up And At It  
Tempers snapped, hot words flew. Larry went out of the house cross and inadequately fed.

Mrs. Peck felt annoyed and frustrated. She thought of all those early years when Larry got up at the crack of dawn.

When he was three, he would come paddling into her room in the pre-dawn haze and cheerfully wake her up with "Up, Mommie."

Now, when getting up early would be some use, you couldn't drag him out of bed.

Larry was growing up all right. Growing up carries responsibility.

ities as well as privileges. It was high time Larry took over the responsibility of getting himself up in time to go to school.

Man Talk

Mrs. Peck decided to take the bull by the horns. She talked it over with Larry.

He really didn't like all the fights in the morning any more than she did.

It's silly for all of us to act like this," said Mother. "You don't like me to nag you. I don't like to see you go off to school half-cocked."

"From now on," said Mother, "it's going to be your job to get yourself to school. You're big enough to take on this responsibility."

"I'm going to wake you up once. I'll see that you are thoroughly awake. Then I'm not going to go near you again. You can get up any time you want but you're going to go to school no matter what time it is. It's up to you to get yourself out of bed, dressed and washed. I'll have breakfast ready and I'll hope you have time to eat it."

Breakfast Call

Larry agreed.  
Next morning Mother woke Larry as promised. Larry turned over and took another snooze. After a bit he remembered and jumped out of bed. When he got downstairs, there were waffles ready for breakfast. Larry loved waffles, but the kitchen clock was ticking fast. He couldn't resist; he ate his waffles.

It was late, but there had been no short tempers. Larry looked sweetly at his mother.

"Mom, how about driving me over this morning. I'll do better tomorrow."

"Nothing doing, Larry."

"I'll be late, you'll have to write me a note."

Mrs. Peck wrote a hasty note.

## PUBLIC SALE

At the same time and place, many items of personal property belonging to this estate will be offered for sale, such as garden tools, refrigerator, rocking chair, Perfection coal oil stove, coal oil room heater, and a quantity of coal and fire wood.

EDGAR A. WOLF,  
GLADYS V. SNYDER, executors,  
Littlestown, Pennsylvania.

Keith, Bigham & Markley, attorneys.

"Larry is late this morning because he didn't get up in time."

"Aw gee, Mom."

"Better get off, Larry."

That evening Daddy brought Larry a present. It was a clock. He could have it in his own room and watch those minutes tick by. The first week was rough, but Mother stuck to her guns. After that the scheme worked. Early mornings in the Peck household became pleasant family gatherings.

## Nurses Halt Donors' Attempts At Grace

FREMONT, Neb. (AP)—After John Davis, a Midland College sophomore donated a pint of blood to the Dodge County Bloodmobile unit, he was given the usual cup of fruit juice and sandwich.

John, a pretheological student, bowed his head in prayer before taking the food. Nurses, thinking he was fainting, quickly grabbed him and had him stretched on a cot before he could explain he was praying—not passing out.

Ambergris, once a treasure when found by whalers no longer has much value because synthetics have replaced it in the perfume industry.

## Judge Sees Possible Zoot Suit, Crime Link

ATLANTIC CITY, N. J. (AP)—County Judge George T. Naame says there's a connection between juvenile delinquency and wearing zoot suits.

"It must be more than just coincidence that a high average of

juvenile offenders wear zoot suits with ankle-tight trousers cuffs, long flared coats with plunging lapels and kind-sized ties and shirt collars."

Zany apparel, he said, gives juveniles a false sense of courage and self importance that can lead to delinquency.

# Lichtenwalter And Messner May Head Republican State Campaign; Leaders Confer

By BEN FRENCH  
PHILADELPHIA (AP) — Pennsylvania republican leaders today considered a plan to have former House Speaker Franklin H. Lichtenwalter and Revenue Secretary Otto F. Messner share masterminding the GOP gubernatorial campaign.

Wasting little time after the comparatively easy victory of organization candidates in Tuesday's primary, 10 top party leaders met in a Philadelphia hotel room to take up the question of naming a new Republican state chairman.

They came to no definite decision.

State Sen. M. Harvey Taylor, the 79-year-old 'veteran Dauphin County leader, is expected to step down within the next two weeks after serving as chairman continuously since 1942. Taylor broke with Gov. John S. Fine and backed the unsuccessful Superior Court candidacy of State Sen. John M. Walker of Pittsburgh.

Horst Also Mentioned  
At yesterday's meeting the choice for Taylor's successor was narrowed to Lichtenwalter, Messner and State Agriculture Secretary Miles Horst. Messner directed the successful primary campaign of Lt. Gov. Lloyd H. Wood, the GOP candidate for governor, and the rest of the so-called "harmony" state.

Lichtenwalter was Wood's choice for primary campaign manager

but the post was given to Messner when opposition to Lichtenwalter developed. That opposition centers around Lichtenwalter's former position as executive director of the Pennsylvania Electrical Assn.

The Public Utility Commission has been a principle target of Democratic criticism. Some GOP leaders have said naming Lichtenwalter state chairman would give the Democrats a chance to brand him a utilities lobbyist for campaign purposes.

Paid Director  
The plan reportedly being given most consideration by the Republican leaders would have Messner operate under the title of state chairman with Lichtenwalter being given a paid post such as executive director. The party chairmanship carries no salary at present.

Fine, who did not attend yesterday's meeting but was in telephone contact with the conferees, was known to be pleased with Messner's handling of the campaign. He also approves of Lichtenwalter.

G. Mason Owlett, GOP National committeeman, said after yesterday's session there still remained a possibility that Taylor might continue in the chairmanship. However, other sources indicated the president pro tempore of the State Senate might be given the title of honorary state chairman. Fine recently replaced Taylor

# East Berlin 40 STUDENTS WILL RECEIVE DIPLOMAS ON SUNDAY EVENING

Forty students will receive diplomas Sunday evening at 8 o'clock at a baccalaureate-commencement exercises of the East Berlin High School of the Conewago Joint School System in the school auditorium.

High honor students include Helen L. Tosten, valedictorian, and Mildred Naomi Miller, salutatorian, with Sarah Jane Cook, Shirley Jean Hoke and Mary Louise Moul. There are eight other honor students: Dawn Corleen Gruver, Juene Elaine Heikes, Nancy Lou Jacobs, Marian Elaine Reynolds, JoAnne Louise Smith, Shirley Ann Staub, Edwin Harry Stockham and Richard Clermont Smith.

Other graduates will be: Helen Nadine Baker, Eva Lorraine Bollinger, Ruth Evelyn Brandt, Sally

as chief patronage dispenser in Dauphin County but Taylor turned in a large majority for Walker in the Superior Court race despite the governor's opposition.

Republican leaders are reportedly anxious to get an early start on the fall campaign. Therefore, they probably will settle the lineup of the top command shortly after the first of next month.

State Sen. George M. Leader, who won the Democratic nomination for governor, has not indicated whether he favors retaining Democratic Chairman Maurice Spain. The Democratic Policy Committee is expected to meet next month to lay plans for the coming campaign.

Attending yesterday's GOP meeting were: Wood, Owlett, Taylor, Atty. Gen. Frank Truscott, Republican candidate for lieutenant governor; Fred C. Peters, Montgomery County chairman; John J. McClure, Delaware County chairman; U. S. Rep. Richard Simpson of Huntingdon, head of the Pennsylvania Republican congressional delegation; Robert Duff, Philadelphia city chairman, and two of the three GOP nominees for Superior Court, Ralph T. Bell of Pittsburgh and George W. Griffith of Cambria county.

Also invited but unable to attend were the other GOP statewide candidates—Mrs. Gaynelle H. Dixon, for secretary of internal affairs, and Judge Robert E. Woodside, already assured of a full 10-year term on the State Superior Court. Woodside won the Democratic nomination also.

# PLAN INQUIRY ON TRADE WITH CHINESE REDS

By JACK BELL  
WASHINGTON (AP) — Chairman Bridges (R-NH) said today the Senate Appropriations Committee will make a "searching inquiry" into the extent to which free world allies have agreed to relax bans on trade with Red China.

Bridges' plan for an investigation of this issue came after Sen. McCarthy (R-Wis.) told the Senate yesterday it would be "criminal folly" not to cut off U. S. financial aid to nations which ship the "the sinews of military and economic strength" to the Communists.

McCarthy had barely finished his floor address before Foreign Aid Administrator Harold E. Stassen shot back with a statement that what the senator said was "fantastic, unbelievable and untrue."

Building For Peace  
Stassen, who has tangled with McCarthy before, said, "We are steadily building for peace under President Eisenhower's leadership." And in an obvious reference to McCarthy's televised tangle

## COSTELLO HAS SHOVED "DEV" OUT OF OFFICE

By TOM OCHILTREE

DUBLIN (AP)—Former Premier John A. Costello's coalition appeared almost certain today to tumble Prime Minister Eamon de Valera from office. Counting of ballots in Ireland's parliamentary elections entered its final phase.

De Valera's Fianna Fail (Men of Destiny) party was still the republic's largest faction, but in the voting yesterday it polled about 10 per cent under its showing in the last general election three years ago.

In 1951 the forces of the 71-year-old, nearly blind "Dev" just squeezed into office. In recent months they had only a two-vote majority in the 147-seat Dail (Parliament).

### Slim Majority

It appeared that Costello's coalition, if victorious, would not command much more of a majority.

With 144 seats at stake in the voting, the count by mid-morning had given 66 to the coalition, 59 to

## 8 Million Koreans Are Casting Votes

SEOUL (AP)—Koreans from crowded, bomb-wrecked cities and shell-pocked farms trekked to polling booths today to vote for a new South Korean National Assembly.

The election has been called an off-year test of President Syngman Rhee's popularity.

Rhee and his wife were among the first to cast ballots in Seoul this morning.

An estimated eight million ballots were cast before the polls closed at 5 p.m., and it may be two days before complete returns are in. Good weather helped bring out a heavy vote.

Although Spain had a leading role in the development of the Caribbean areas, including the voyages of Columbus, she does not now control any territory there.

Fianna Fail and 4 to independents. This was the standing in the coalition: Costello's Fine Gael (United Ireland), 43; Labor, 15; Clann Na Talmhan (Farmers), 6; Clann Na Poblachta (Republicans), 3.

Poling for three seats was put off until May 26 following the death of a candidate.

## PRIVATE TALKS WITH TOP REDS FOR EDEN TODAY

By MAX HARRELSON

GENEVA (AP)—British Foreign Secretary Anthony Eden planned private talks with top Communist delegates today in another try to get the deadlocked Indochina conference moving. Formal negotiations were suspended for the day.

The latest snarl was due to continued Red demands that the Communist "resistance governments" of Laos and Cambodia be invited to Geneva. The Western Big Three regard these as Communist-invented "phantom" regimes with no following and no right to representation.

Negotiations dragged to a complete standstill last night after three long secret sessions between the nine participating delegations. A proposal by Eden for a one-day "cooling off" period was accepted, and the talks were suspended until tomorrow afternoon.

During the layoff in formal talks, Eden—representing the Western Big Three—hoped to find a solu-

## Sign Cause Of Drop In Church Attendance

RICHMOND, Va. (AP)—The Virginia State Highway Department is rephrasing some signs.

Those reading "Do not cross solid line when on your side" are being replaced with new ones reading "Do not pass when solid line on your side."

Not much difference? Motorists apparently think there is. One minister, whose church is on a curve, said they took literally the "do not cross" and church attendance dropped off noticeably.

## Odd Canine Names Contradict Emotions

OAKLAND, Calif. (AP)—A fluffy French poodle and a huge English bulldog tangled in a fight.

The poodle's owner cried: "Quiet, Demon!"

And the bulldog's owner: "Quiet, Maybelle!"

The dogs obeyed.

ADVERTISE IN THE TIMES

## SEE NEW STRAIN ON AMERICAN- BRITISH TIES

By JOHN M. HIGHTOWER

WASHINGTON (AP)—Any initial coalition formed to deal with the war in Indochina probably will be set up without the British, and officials here fear this will impose new strains on American-British relations.

U. S. authorities said today this government would not under any circumstances cease to hope and work for an active British role in the united front which President Eisenhower and Secretary of State Dulles are trying to create.

But present British policy bars any commitments until the outcome of the Geneva conference on an Indochina armistice is known. That may be many weeks away.

Not Willing To Wait

The United States, and apparently France and several other interested nations, are not willing to wait that long. If other problems can be solved, it is possible that some kind of informal coalition can be set up in the next three or four

weeks. Eisenhower told a news conference yesterday he thought that a workable united front could be arranged provided the proper Asian nations and Australia and New Zealand would join.

State Department officials are confident those qualifications can be met, once various preliminary events are out of the way.

Iowa, in the heart of the corn belt, produced 1,170,000 tons of bituminous coal in 1953.

## POSTPONE DIVIDEND

CONSHOHOCKEN, Pa. (AP)—No action has been taken by directors of Alan Wood Steel Co. on a common dividend normally payable on June 15.

President John T. Whiting said the board felt it advisable to conserve cash for completion of the firm's plant addition and improvement program.

He said dividend action will be considered from time to time through the rest of the year and if it seems advisable to pay a divi-

dend in cash, consideration will be given to payment of a stock dividend.

The company has been paying 35 cents quarterly.
